# EAST OAK

# EAST OAK Pan Stove™ Series

## Welcome to East Oak!

Go big or go home – it's your call. Once the flames are out, place the lid on top of the fire pit for extra snack space or added safety for your friends. Either way, you're winning. Enjoy the night.

## INTRODUCTION

- It's a celebration. Just like our fire pit, this lid remains the center of the party. You can use it as a tabletop or stylish protection from extreme weather conditions.
- Durable – Yes, we're stylish. But we're sturdy too. We've created this model with 304 stainless steel, so the lid can hold your drinks, snacks, and even some fun games too.
- Maximize temperature – Keep the warmth without the flames.

## ⚠ WARNING

- Do not place the lid over a burning fire.
- Do not sit or bear any weight on top of the lid.
- Do not use the lid to put out a fire. This product is only intended for use once the fire is out.
