

EAST OAK

MODEL:EPSVFS06

Achieve truly smokeless, longer-lasting warm with superior burn efficiency, enhanced airflow, and a wider flame opening for stable and strong heat.

Quick Start Guide

Step 1

Ensure that the fire pit is installed as shown in the picture.

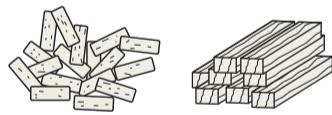

Mini Fuoco smokeless fire pit

Step 2

Insert and pack wood or pellets along with any fire starters fire tightly above the burner plate.

Step 4

Wait until the fire is COMPLETELY extinguished before leaving.

Step 3

After ignition carefully place the flame ring on top, making sure it sticks out from the fire pit's opening to help concentrate the flame.

Ensure the raised sides of the flame ring face upwards

Step 5

Disassemble the ash collector base to clean out remaining ash.

Tips:

Move the main fire pit to clean the dust only after it has completely cooled down.

Storage & Care

Keep Dry

When the fire pit is not in use, move it to a dry place for storage; or use a fire pit cover to keep it clean and extend its lifespan.

Clean

If the fire pit turns yellow or stains after use, gently clean it with a sponge and a universal stainless steel cleaner.

Why Color change

The fire pit will change color when exposed to high temperatures. This is normal and won't affect its performance.

Rust Risk

Prolonged exposure to moisture can cause the fire pit to change color or rust.

The Power of Stainless Steel

Benefits of Stainless Steel

The fire pit is made from stainless steel, which resists rust better than regular steel thanks to its chromium-rich oxide layer that blocks oxygen.

Protective Layer Formation

When heated, the stainless steel forms a thin Fe3O4 oxide layer that slows rusting. The color changes with heat: yellow at 230-280°C, blue at 300°C, blue-purple at 315-330°C, and gray above 400°C, creating a unique surface effect.

Tips for Long Term Use

Humidity speeds up corrosion. To extend the life of your fire pit keep it dry when not in use and avoid water exposure.

FOR YOUR SAFETY

Please read and understand all safety rules before assembling and using this fire pit. Failure to follow these instructions could result in a hazardous fire, causing property damage or physical injury.

RULES FOR SAFE OPERATION

⚠ CAUTION: FOR OUTDOOR USE ONLY. DO NOT USE INDOORS.

- For adult use only – do not allow children to use the fire pit. Keep children and pets away from the fire pit while it is in use.
- Always use this fire pit on a hard, level, non-combustible surface.
- It is not recommended to use it directly on a wooden deck. It is acceptable to lay a fire pit mat to protect the surface.
- Do not use under a patio roof, low-hanging branches, trellises, or any kind of overhang, including covered porches.
- Do not use during thunderstorms. Do not add wet wood to the fire, as it may affect the fire pit's performance.
- Do not leave the fire unattended at any time.
- Make sure all combustible materials are far enough away from the fire pit to prevent ignition.
- Always follow local and state fire codes.
- Exercise the same precautions as you would with any open fire.
- The fire pit's surfaces are hot while in operation. To avoid burns or injury, do not touch the fire pit until the fire is out and the surface has completely cooled.
- Ensure the fire is completely extinguished before leaving the fire pit.
- Any modifications to this appliance may be dangerous and are strictly not permitted.
- Do not attempt to move the fire pit once the fire has started.
- Do not place the fire pit in an area where it can be easily tripped over.
